

|| PHYSICS/CHEMISTRY INSTRUCTOR ||

St. Teresa's Academy

St. Teresa's Academy is a Catholic, college-preparatory high school committed to excellence in the education of young women. The Academy offers a rigorous academic curriculum combined with the latest technology, competitive athletic teams, award-winning fine arts programs, and a wide variety of extracurricular opportunities. STA educates young women to think critically, encourages them through Catholic values to love the dear neighbor without distinction, and empowers them to change the world.

The Academy is seeking a full-time physics/chemistry instructor to collaborate with the Principal for Academic Affairs and Science Department colleagues. This educator will support and integrate the values of STA and the Sisters of St. Joseph of Carondelet into the daily work and curriculum, igniting a passion for science, rigor and excellence.

We offer a terrific benefits package including:

- Discounted tuition for employees' daughters attending STA
- Medical, dental, and vision plans
- FSA/HSA plans
- Life & voluntary life
- Short-term & long-term disability
- Critical illness
- 403(b) retirement savings plan with school match
- Generous paid time-off benefits including long holidays and seasonal breaks typically enjoyed by schools!

| Responsibilities |

- The duties of a physics/chemistry teacher include creating lesson plans, preparing classroom activities, organizing teaching materials, evaluating student performance, maintaining classroom records, meeting with parents, teachers and other professionals, and participating in campus events.
- Teach physics and chemistry required courses and electives.
- May include honors, college dual-credit courses and/or advanced placement courses pending certification.
- Serve as a member of the Science Department, attend departmental meetings, develop and update course .curricula, purchase supplies within a budget, collaboratively plan experiential learning opportunities and review textbooks.
- Support the school's mission and the mission of the Sisters of St. Joseph of Carondelet.

| Qualifications |

- Bachelor's degree in chemistry , physics, or equivalent required.
- Experience teaching dual-credit courses preferred.
- Physics and chemistry experience required.
- A passion for science and advanced placement instruction.

- An understanding of best practices in education.
- A demonstrated passion for inspiring young women through excellent instruction.
- Ability to integrate technology into the curriculum.
- Collaborative spirit in developing cross-curricular experiences for students.
- Flexibility, optimism, creativity, high expectations and an emphasis on student-centered learning.
- Enthusiastic involvement in the school community outside the classroom.
- Excellent communication skills, both written and oral.
- Proven organizational skills.
- Understanding of the Catholic faith, single-sex schools and the mission of the Sisters of St. Joseph of Carondelet preferred.
