

|| PART-TIME COMPUTER SCIENCE INSTRUCTOR ||

St. Teresa's Academy

St. Teresa's Academy (STA) is a Catholic, accredited, college-preparatory high school that provides young women with a premier education that includes a rigorous academic curriculum and technology program, award-winning arts and athletics programs, and service and mission opportunities. STA, founded by the Sisters of St. Joseph of Carondelet, educates young women to think critically, encourages them through Catholic values to serve others, and empowers them to make a profound impact on the world.

The Academy is seeking a part-time Computer Science instructor to work with the Principal for Academic Affairs, Director of STEAM Projects & Education and STA colleagues. This educator will support and integrate the values of St. Teresa's Academy and the Sisters of St. Joseph of Carondelet into the daily work and curriculum, igniting a passion for computer science, rigor, and excellence.

|| Responsibilities ||

- The duties of a Computer Science teacher include creating lesson plans, preparing classroom activities, organizing teaching materials, evaluating student performance, maintaining classroom records, meeting with parents, teachers, and other professionals, and participating in campus events
- Teach required courses and electives which may include Computer Science Discoveries, AP Computer Science
- Opportunity to coach the STARbots Robotics /First Tech Challenge Team
- May include honors, college dual credit courses and/or advanced placement courses pending certification
- Support the school's mission and the mission of the Sisters of St. Joseph of Carondelet

|| Qualifications ||

- A bachelor's degree in the field of Information Technology, Computer Science, or related field.
- Secondary or Post-Secondary teaching experience preferred
- An understanding of the importance of computer science, coding and robotics in school education and is able to support an engaging curriculum around the ideas of computer science, coding, and robotics
- Must have programming and/or coding experience (Java and/or Python)
